Summary

Front-End Developer with 3+ years of experience developing commercial applications.

Proficient in **JavaScript, TypeScript, React, Redux, React Native**, and leveraging tools like **Redux Toolkit** and **Redux Saga**, with a strong track record in crafting seamless data flow in user-centric interfaces.

Proven ability to collaborate effectively in cross-functional environments and continuously enhance user experience.

Skills

- **Programming Languages:** JavaScript, TypeScript
- **Frameworks and Libraries:** React, React Native, Redux, Redux Toolkit, RTK Query, Redux Saga, Material-UI, Emotion, Styled-components, React Router, Formik, Yup, React-Redux, Axios, Stripe.js, i18next, Jest, Unit Testing
- **Tools and Technologies:** Git, GitHub, Webpack, Babel, ESLint, Prettier, Xcode, Android Studio, RESTful APIs

Work Experience

Front-end Developer [Amous](#) · Full-time Chicago, IL, USA · Remote **07/2021 - present**

- Developed a **transportation management system (TMS)** that helps companies manage logistics of moving physical goods by land, air or sea
- Implemented clean, efficient, and maintainable code, ensuring compliance and consistency, which improved code quality and reduced bugs
- Worked with cross-functional teams to design and deploy user interfaces, ensuring smooth integration of frontend components for improved user experience
- Ensured high-quality, bug-free applications by closely working with QA teams and troubleshooting front-end issues
- Suggested and implemented process improvements to continuously optimize development workflows on the platform

JavaScript, TypeScript, React, React Native, Redux, Redux Saga, Material-UI, Emotion, Styled-components, React Router, Formik, Yup, Axios, RESTful APIs

Front-end Developer [MyTruckList inc.](#) · Part-time Chicago, IL, USA · Remote **02/2023 - 05/2024**

- Developed a **web-based tool for trucking companies** that automates truck availability notifications via email, improving communication efficiency
- Implemented clean, efficient, and maintainable code using modern front-end technologies
- Collaborated with QA teams to troubleshoot front-end issues, ensuring seamless integration and continuous improvement of the user experience, which led to reduction in user-reported issues
- Guided a team of developers, fostering collaboration and growth, resulting in successful development time reduction
- Proposed and executed enhancements to streamline development processes, contributing to the overall optimization of the platform, which reduced development time

JavaScript, React, Redux Toolkit, RTK Query, React Router Dom, Material-UI, Emotion, Styled-components, Formik, Yup, Axios, RESTful APIs

Education

- **Lviv Polytechnic National University** · Master's degree in Chemical Technology and Engineering

Certifications

- [IBM Front-End Developer Specialization Professional Certificate](#) · Coursera · (07/2024)
- [Meta React Native Specialization Certificate](#) · Coursera · (06/2024)
- [Meta Front-End Developer Specialization Professional Certificate](#) · Coursera · (05/2024)
